

2014 Georgia Farm Gate Value Report

Compiled and published annually by

The Center for Agribusiness & Economic Development

Dear Farm Gate User:

We are pleased to present the 2014 Farm Gate Value Report (FGVR). The FGVR is compiled from a survey of Georgia Cooperative Extension county agents and commodity specialists for the purpose of providing annual county-level information for the value of all food and fiber commodities grown in the state.

Georgia Cooperative Extension and the Center for Agribusiness and Economic Development continue to face challenges in terms of resources available for compiling the Farm Gate Value reports. However, all reasonable effort has been given to verify and validate information included in this report in an effort to maintain the integrity and credibility established by the FGVR.

The 2014 FGVR indicates that Georgia's total agricultural production value of \$14.1 billion was up \$484 million (+3.56%) from 2013. All commodity groups except Row and Forage crops and Other Income experienced gain in value. Livestock and Aquaculture value increased by \$600,848,905 (+35.77%), Poultry and Eggs group by \$85,752,471 (+1.58%), Forestry group by \$110,638,256 (+18.24%), Ornamental Horticulture group by \$45,639,932 (+8.11%), Fruits and Nuts group by \$43,258,120 (+5.93%), Vegetables group by \$20,105,418 (+2.02%), and Agriculture and Nature based tourism group by \$13,808,409 (+9.7%), and Other Income group by \$13,808,409 (+0.81%).

The Row and Forage crops group experienced a decrease of \$426,296,716 (-14.82%). Despite being the highest value row crop once again in 2014 cotton has continued its downward trend. Farm Gate Value of Cotton in 2014 decreased by \$245,087,948 (-20.26%) from 2013. Other Income decreased by \$8,738,067 (-1.57%). Broilers remained the commodity with the largest Farm Gate Value of \$5,523,906,202 an increase of 1.58% from 2013. However, percent contribution of broilers to the total Farm Gate Value dropped slightly from 32.59% in 2013 to 32.28% in 2014.

We hope that the 2014 Georgia Farm Gate Value Report will be a useful reference tool. This data may be accessed online at the Georgia Statistics Systems web site, www.georgiastats.uga.edu, and in Adobe Acrobat format at the center for Agribusiness & Economic Development website, www.caed.uga.edu. We encourage the users to access more detailed reporting of Georgia Farm Gate Value data at <http://farmgate.caes.uga.edu/>.

Sincerely,

Kent Wolfe
Center Director

Karen Stubbs
Research Professional II, Farm Gate Coordinator

Acknowledgements

Special thanks to the Office of Information Technology, College of Agricultural and Environmental Sciences, for the support and maintenance of the Farm Gate database and Web site.

We appreciate the work of the Georgia Cooperative Extension Specialists who were consulted in the process of organizing this report along with the Georgia Cooperative Extension Agents and the Program Development Coordinators who provided information for the Farm Gate Value Report.

A Comparison of Agricultural Data Sources

In addition to the Farm Gate Value Report (FGVR), users of agricultural data in the state of Georgia have had a variety of available resources including Georgia Agricultural Facts (Ag Facts), and The Census of Agriculture (Census). Historically, the Georgia Agricultural Statistics Service has published Ag Facts annually. However, the Georgia Agricultural Facts was discontinued after the 2009 issue due to budget and resource cuts. The Georgia Agricultural Statistics Service continues to publish much of the information and post it to their website, but Ag Facts is not available in the previous format. The Census is produced every five years by the United States Department of Agriculture. Georgia Cooperative Extension compiles the FGVR typically each spring to capture the prior year's information. Since each of these reports measure different variables in different ways, it is likely that numbers taken from one report will not exactly match those from another report for similar commodities.

The FGVR relies exclusively on Cooperative Extension personnel to provide production information. Each year a survey is distributed to each county Extension office for completion by the county agent. For crops, individual agents are asked to supply county acreage and yields. A suggested price for each crop (determined by Extension specialists) is provided. The price for crops includes an adjustment for all government payments directly associated with the production of the crop and should provide a better indication of the value of the crop. Individual agents have the option of adjusting the price based on county conditions. For livestock, inventory numbers are requested and a formula is then applied to calculate average production for the year and value of production for the county.

Although Ag Facts also reports annual data, the types of data and sources differ from the FGVR. Ag Facts surveys a wide range of producers, farmers, agribusinesses and Extension personnel and conducts some field observations. Furthermore, while the FGVR focuses only on value of production data, not all of Ag Facts data is value of production. For some commodities, most notably livestock, sales or cash receipts are used instead. Cash receipts measure the value of marketings for the year, regardless of the year in which the commodity was produced. Another difference between the FGVR and Ag Facts is that the FGVR has county-level value of production data for all of its commodities. Finally, the FGVR contains some commodities which are unavailable in Ag Facts.

The Center for Agribusiness & Economic Development

The Center for Agribusiness and Economic Development is a unit of the College of Agricultural and Environmental Sciences of the University of Georgia, combining the missions of research and extension. The Center has among its objectives:

- To provide feasibility and other short term studies for current or potential Georgia agribusiness firms and/or emerging food and fiber industries.
- To provide agricultural, natural resource, and demographic data for private and public decision makers.

To find out more, visit our Web site at: <http://www.caed.uga.edu>

Or contact:

Dr. Kent Wolfe, Director
Center for Agribusiness and Economic Development
Lumpkin House
The University of Georgia
Athens, Georgia 30602-7509
Phone (706)542-2434

The University of Georgia and Fort Valley State University, and the U.S. Department of Agriculture and counties of the state cooperating. The Cooperative Extension Service offers educational programs, assistance and materials to all people without regard to race, color, national origin, age, sex or disability.

An equal opportunity/affirmative action organization committed to a diverse work force.

Report Number: AR-15-01

September 2015

Issued in furtherance of Cooperation Extension Acts of May 8 and June 30, 1914, the University of Georgia College of Agricultural and Environmental Sciences, and the U.S. Department of Agriculture cooperating.

Josef M. Broder, Interim Dean and Director
