Acknowledgements

Special thanks to the Office of Information Technology, College of Agricultural and Environmental Sciences, for the support and maintenance of the Farm Gate database and Web site. Thank you to the Georgia Cooperative Extension Specialists who were consulted in the process of data collection and organizing this report. Thank you to the Georgia Cooperative Extension Agents and the Program Development Coordinators who dedicated many hours to the collection and entry of data for the farm gate value survey, without which this report would not be possible.

A Comparison of Agricultural Data Sources

In addition to the Farm Gate Value Report (FGVR), users of agricultural data in the state of Georgia have had a selection of available resources, including those from the United State Department of Agriculture's National Agricultural Statistics Service (NASS), providing numerous state and county-level data sources such as the Census of Agriculture (Census). Historically, the Georgia NASS office published Agricultural Facts annually.

However, the legacy version of this publication was discontinued following the 2009 issue, due to budget and resource cuts. Georgia Agricultural facts, a 2-page brief on Georgia's top agricultural commodities, has also been discontinued. Data is still available in the QuickStats database. The Census is conducted every five years, from the perspective of all U.S. farms and ranches, detailing figures on farm operations and operators, production, income, and expenditures for various geographies.¹ The Center for Agribusiness and Economic Development (CAED) partners with Georgia Cooperative Extension to compile the FGVR each spring to capture the prior year's information. Since each of these resources measure agricultural data in different ways, it is likely that numbers taken from one report will not exactly match those from another for similar commodities.

The FGVR relies exclusively on Cooperative Extension personnel to provide production information. Each year, a survey is distributed to Extension offices for completion by the county agent. For crops, individual agents are asked to supply county acreage and yields. A suggested price for each crop (determined by Extension specialists) is provided. Individual agents have the option of adjusting the price based on county conditions. Agents are also provided with acreage data for row crops, fruits, nuts and vegetables from the Farm Service Agency (FSA) for guidance. For livestock, inventory numbers are requested, to which a formula is applied for calculating average production for the year and value of production for the county. The CAED supplements the agent-submitted data with statistics from other sources for the value of timber (GA Department of Revenue), crop insurance and government payments (Farm Service Agency.)

Although NASS also reports annual data, the types of information and sources differ from the FGVR. FGVR numbers focus strictly on the value of production, while not all the NASS resources inform from this perspective. Examples of this divergence include use of sales or cash receipts, with figures based on data from both published and unpublished NASS sources, or methodology variations between crop and livestock commodity measurements. Another contrast is found in the FGVR delivery of county-level value of production data for each of its commodities. Finally, the FGVR contains specific level of detail about certain commodities that are not available through NASS sources.

2024 Georgia Commodity Value Rankings

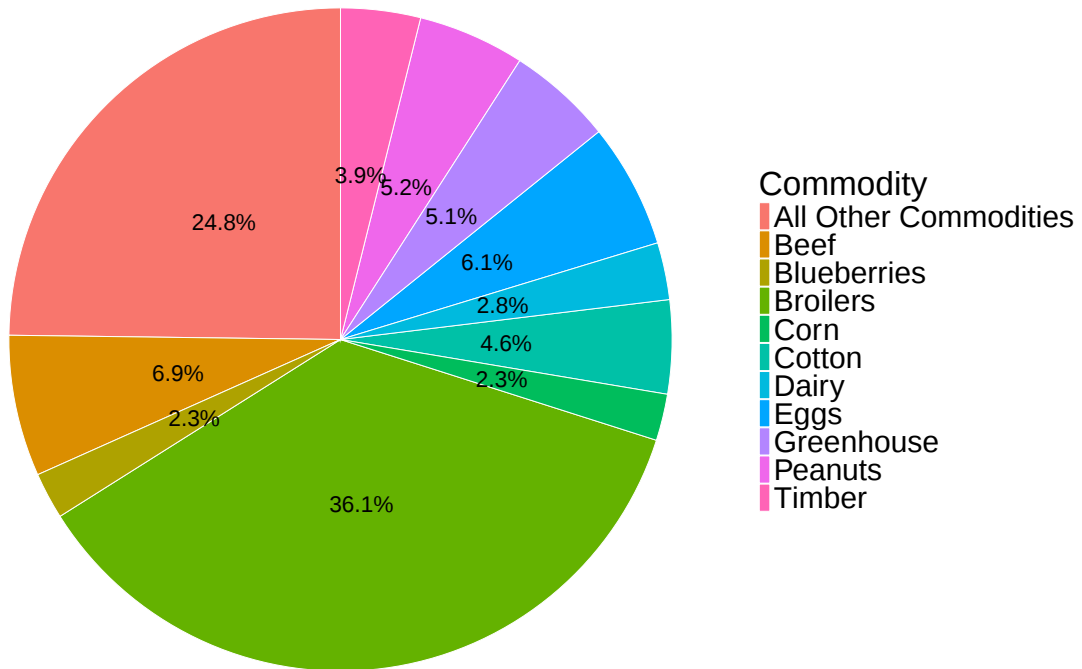

The table below summarizes the total economic value and percentage contribution for each commodity.

Rank	Commodity	Total Value (USD)	Percent of Grand Total
1	Broilers	\$6,092,914,000	36.14%
2	Beef	\$1,161,380,858	6.89%
3	Eggs	\$1,024,546,000	6.08%
4	Peanuts	\$877,887,046	5.21%
5	Greenhouse	\$863,197,925	5.12%
6	Cotton	\$770,406,316	4.57%
7	Timber	\$655,592,850	3.89%
8	Dairy	\$469,274,530	2.78%
9	Corn	\$382,808,328	2.27%
10	Blueberries	\$382,668,487	2.27%
11	Hay	\$353,898,057	2.10%
12	Horses	\$290,453,217	1.72%
13	Turfgrass	\$285,074,531	1.69%
14	Pecans	\$274,268,422	1.63%
